

Good Afternoon,

Many psychologists have offered to help as volunteers since Harvey hit the Texas coast. TPA is committed to supporting Texans as they deal with their emotional and behavioral responses to disaster.

As part of our TPA Disaster Resource Committee efforts, we are setting up a short-term post-Harvey (three sessions maximum) pro bono counseling program. If you are a licensed psychologist in good standing and interested in volunteering to participate in this program, please visit the link below to complete the form by populating your specialties and populations served. All fields in the form are required.

<http://www.texaspsyc.org/?page=DisasterResponse>

There is no need to respond if you DO NOT wish to participate. If you responded previously to a TPA email on this matter, there is no need to respond again. By completing the form, you are agreeing to offer 3 sessions pro bono therapy either in person or via telephone. The Harvey Doctor Finder will be a time limited program listed on our website.

Thank you for your kind consideration.

Sherry Reisman

Assistant Executive Director

Texas Psychological Association
